

Array Achieves Compliance and Business Transparency with New Financial System

CHALLENGES

As a leading IT products and services firm with 350 employees, Array Information Technology needed an accounting system that would support DCAA Compliance and be user friendly. They also wanted a system that would provide real-time data and reporting to all 15 branches to make informed company decisions. Deltek GCS did not fulfill their requirements, so they looked to Unanet for help.

"Posting revenue by type of contract saves time so that financial periods can be closed quickly and efficiently. We know that everything is closed on time and correctly."

**Bob Deegan, Senior Vice President and CFO,
Array Information Technology**

- Use of a legacy system without real-time data was causing managers to receive reporting with information 6 to 8 weeks old
- Getting all employees to enter time and expenses daily was difficult due to a poor user experience
- Disparate systems made complying with, and enforcing, company processes and Federal Regulations onerous
- Finding a vendor with real-life experienced consultants in order to facilitate a seamless transition to a new system
- Struggling to make informed business decisions because they did not have the right financial data available.
- Finding a new system that would support a complex indirect cost accounting system with 9 cost pools

ARRAY Information Technology, Inc. specializes in information technology and other services to the National Security, Defense, and Scientific Sectors.

ARRAY is known for its employee-friendly culture and its ability to drive success for its clients through applied innovation.

Array is headquartered in Greenbelt, MD.

With over 20 years of production use, Unanet is a proven solution for managing projects, people and financials in project-driven organizations.

Over 1,000 customers—including General Dynamics, Leidos, Pfizer, and Stanford University—trust Unanet to provide visibility into the work, reduce costs, improve revenues, and streamline business management of services processes.

Unanet customers typically achieve ROIs of over 1000%.

"Unanet shone during our DCAA audit".

Bob Deegan, Senior Vice President and CFO

THE UNANET SOLUTION

Array implemented Unanet Project Portfolio Financials with support from Unanet's Professional Services team. The Unanet single solution for people, projects, and financials delivered DCAA compliance and real-time data reporting capabilities. Array was now able to make data driven decisions, and they have seen significant gains in productivity and accuracy across the company.

After implementing Unanet, Array:

- Successfully completed a DCAA audit that stated that their accounting system design complies in all material respects with the criteria contained in FAR 53.209-I(f), Standard Form 1408 (SF1408)
- Is able to create real-time reports for managers
- Is able to watch changes to projects flow through the Unanet Financials accounting process, and return accurate and real-time data
- Employees are adhering to procedures and policies company-wide
- Has seen improved productivity through accurate and intuitive billing capabilities
- Is leveraging the detail-oriented system to uphold their complex indirect cost accounting requirements
- Completed the budget for next fiscal year months ahead of schedule
- Provided transparency to stakeholders, such as the board, through briefings directly from Unanet reports
