

Purpose-built AI for AEC proposals

Enhance your ability to win new projects with AI-powered proposal development, delivering high-quality drafts 70% faster than traditional processes.

Generate quality proposal drafts in less time, increasing your response capacity and win rate.

Utilize previous proposals and artificial intelligence to seamlessly create comprehensive proposal drafts that highlight your firm's institutional knowledge and competitive advantage. Purpose built for architecture, engineering, and construction, Unanet ProposalAI ensures all RFP requirements are met, and each generated draft is fine-tuned for the specific opportunity you are pursuing.

Purpose-built AI for AEC proposals

Secure and Purpose-Built Proposal AI

Purpose-built AI solution for proposal draft generation. Hosted on a secure and private cloud, this advanced AI model has been trained on an extensive amount of RFP and AEC project acquisition data, ensuring that it provides highly tailored proposal drafts without compromising your firm's proprietary data and sensitive information.

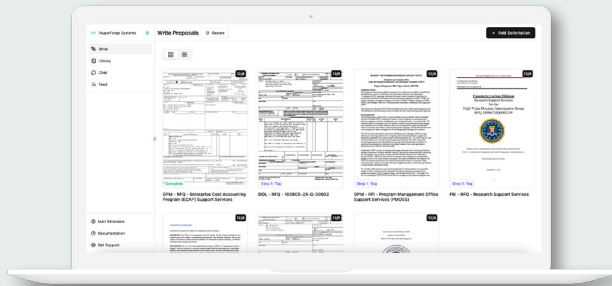

70% faster
time to
first draft

50% lower
proposal writing
costs

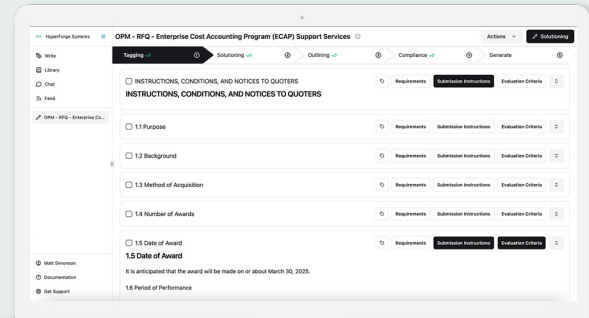

Automate project
descriptions, SOW,
project execution (PEP),
relevant experience/
resumes, and more.

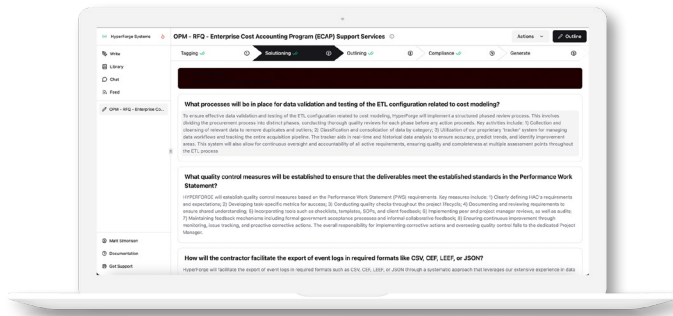

Reference Library: White-box AI knowledge hub

Effortlessly upload your past proposals into a secure and cataloged repository to generate RFP-compliant proposal drafts that possess your firm's institutional knowledge and unique voice, while providing the sources from your library..

Automatically deconstruct and analyze key areas of RFPs to meet proposal requirements. Use system automation to cross-reference and ensure responses comply with contract requirements.

RFP Shredder and Compliance Matrix Analyzer

Proposal Chat Bot

Utilize natural language to search your document library for specific information on previous proposals, responses, topics, and more. Surfacing evaluation-proven content in less time, allowing your business to tailor drafts more effectively and efficiently.

“This is powerful technology. It gives us the capacity to respond to about 30% more RFPs”
