

Purpose-built AI for GovCon proposals

Enhance your business' ability to win government contracts with AI-powered proposal development, delivering high-quality drafts 70% faster than traditional processes.

Generate quality proposal drafts in less time, increasing your response capacity and win rate.

Utilize previous proposals and artificial intelligence to seamlessly create comprehensive proposal drafts that highlight your business' institutional knowledge and competitive advantage. Purpose-built for Government Contracts, Unanet ProposalAI ensures all contract requirements are met, and each generated draft is fine-tuned for the specific solicitation your business is pursuing.

Purpose-built AI for GovCon proposals

Secure and Purpose-Built Proposal AI

Purpose-built AI solution for proposal draft generation. Hosted on a secure and private cloud, it meets DAWIA/FAC-C and APMP certification requirements. This advanced system has been trained on an extensive amount of RFP and government acquisition data, ensuring that it provides highly tailored government proposal drafts without compromising your business's proprietary data and sensitive information.

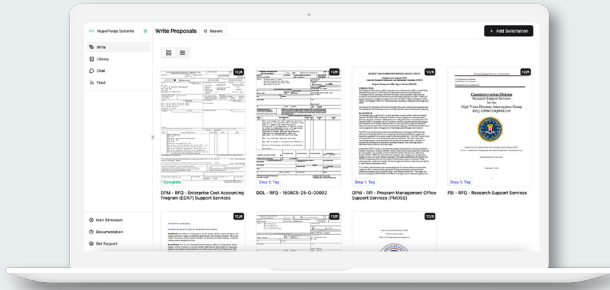

**70% faster
time to
first draft**

**50% lower
proposal writing
costs**

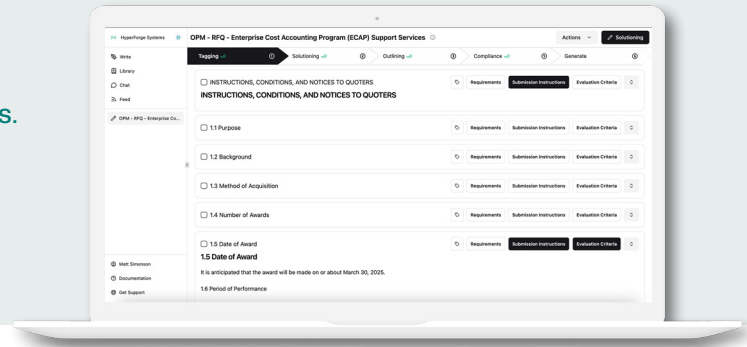

**Automate SHRED,
requirements matrix,
pursue/no pursue,
SME interviews, gap
analysis.**

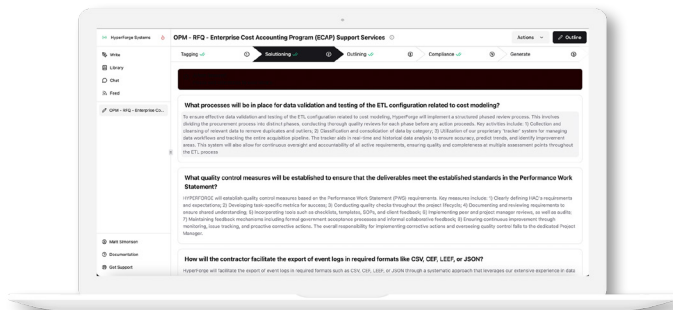

Reference Library: White-box AI knowledge hub

Effortlessly upload your past proposals into a secure and cataloged repository to generate RFP-compliant proposal drafts that possess your business's institutional knowledge and unique voice, while providing the sources from your library.

Automatically deconstruct and analyze key areas of RFPs to meet proposal requirements. Use system automation to cross-reference and ensure responses comply with contract requirements.

RFP Shredder and Compliance Matrix Analyzer

Proposal Chat Bot

Utilize natural language to search your document library for specific information on previous proposals, responses, topics, and more. Surfacing evaluation-proven content in less time, allowing your business to tailor drafts more effectively and efficiently.

“This is powerful technology. It gives us the capacity to respond to about 30% more RFPs”
