

NVE INC IMPLEMENTS UNANET TO DRIVE COMPANY-WIDE EFFICIENCIES

CHALLENGES

As an innovative technology solutions provider delivering construction security, integrated facilities services, and management consulting and support, NVE conducted an internal review of their business systems and decided to choose a new ERP solution. With 325 team members, they needed an ERP system that would support their organization while allowing them to better streamline their operations as they continued providing exceptional service to their federal, state, and local customers.

- NVE had been using Unanet's time and expense tool for several years, but was using MS Dynamics SL for their financials
- They faced regular difficulties with routine finance tasks and had to do many things outside of the system
- Backing up of their data in MS Dynamics was clunky
- Adding new accounts to the GL was troublesome
- NVE considered several systems and narrowed it down to Unanet and Costpoint. When evaluating product, price, ease of implementation, and daily maintenance, they decided on Unanet

"Unanet's efficiencies and processes have allowed us to grow by 30% this year without having to grow our Finance team."

Charles Bonner, Vice President of Finance

As a government contractor, NVE, Inc., strives to provide exceptional value to the nation's taxpayers by managing costs and delivering value above and beyond expectations. They see it as their privilege to support federal, state, and local governments by providing our expertise as effectively and efficiently as possible.

Over 2,000 professional services organizations trust Unanet's Cloud ERP platform to scale their businesses while drastically reducing G&A in a "Single Source of Truth". Our customers report 50% lower G&A headcount than those running competitive systems and can reduce effort on administrative processes by 90%. For more information visit www.unanet.com.

THE UNANET SOLUTION

NVE, Inc. made the switch from MS Dynamics SL to Unanet to streamline internal operations and improve their financial processes.

They now have a single solution for projects, people, and financials with real-time data reporting capabilities. The new solution has automated many once-manual tasks and its ease of use has provided the team with more time for strategic efforts.

After choosing Unanet, NVE:

- Is quicker to invoice and close
- Has decreased their days to close by more than 50%
- Can set up new contacts in a matter of minutes instead of a matter of hours
- Provides their project management team with the type of reports that allow them to quickly identify issues and resolve them
- Found Unanet so intuitive that the time spent learning the new system was minimal
- Completed their CPA financial audit with flying colors
- Has everything at their fingertips

"Having gone through a lot of implementations, this was the easiest and cleanest implementation that I have ever seen.

It's a testament to how Unanet is so thoughtfully designed and built."

Charles Bonner, Vice President of Finance
