

SUCCESS STORY

VaST Chooses Unanet Purchasing

CHALLENGES

- Required a web-based system that could provide real-time purchasing information to all relevant staff
- Wanted employees to have mobile access to the system
- Wanted the ability to track packing slips against orders and see real-time status
- Needed to match up subcontractor labor and expenses with invoices
- Wanted to reduce manual effort required to produce status of purchase orders
- Required a complete picture of outstanding purchasing commitments to actively track and follow up on obligations

“Being able to see everything in a centralized, consolidated system is huge. We have so much confidence in the system and the way it processes data that we give DCAA direct access to our books.”

- Brandon Perdue, Contracts Manager, VaST Inc.

ABOUT VaST

A leader in the Defense & Space industry, VaST Inc. provides end-to-end integrations of applied solutions for their clients. They used Unanet for time and expense, billing and invoicing, resource planning, and financials. With 225 users, VaST needed a consolidated purchasing system that would provide real-time insight into purchasing activity. Their spreadsheets required manual work for simple data requests and created many inefficiencies, so they looked to Unanet for help.

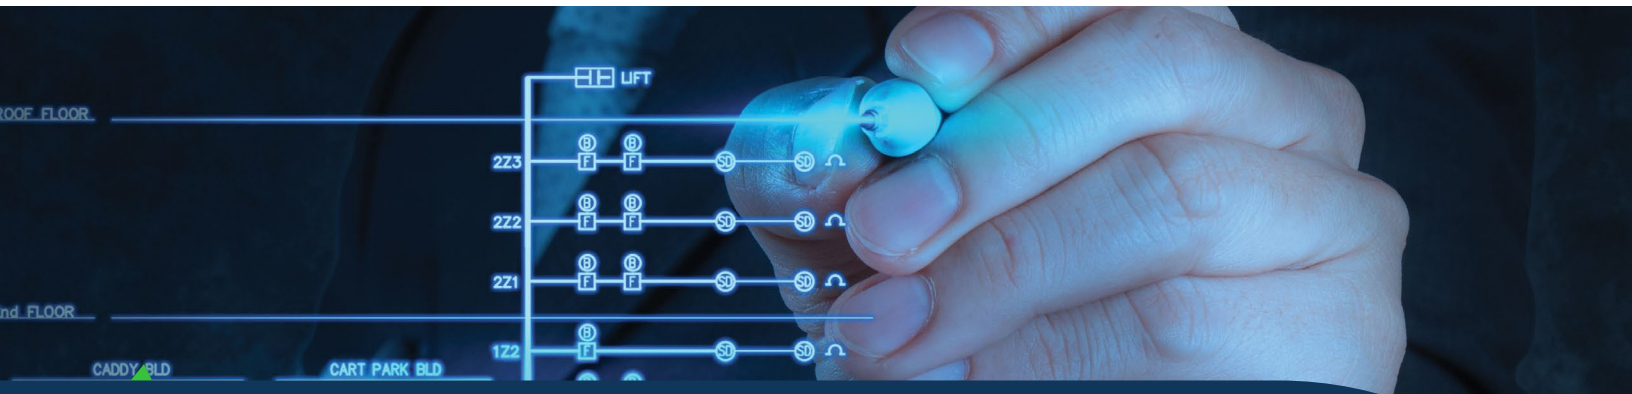

VaST is a company focused on mission integration, meaning their priority is to provide solutions that are relevant, usable, and successfully delivered into the hands of the end users. They pride themselves in their ability to provide the industry with end-to-end integrations of applied solutions better than anyone else can.

THE UNANET SOLUTION FOR VaST, INC.

VaST Inc. capitalized on their investment and implemented Unanet Purchasing functionality. They now have a single integrated solution for projects, people, and financials with real-time data reporting capabilities. The full solution provides a comprehensive, consolidated view of all company transactions

After implementing Purchasing, VaST Inc.:

- Saves time and manual effort on the purchasing process
- Actively tracks and follows up on outstanding purchase order commitments
- Provides subcontractors direct access to timesheets, eliminating reconciliation of labor and expenses with invoices
- Has clarity on commitment details with the click of a button
- Effortlessly checks real-time status of purchase orders
- Manages all transactions in one truly integrated system
- Has a web-based system with mobile access
- Has gained confidence in purchasing data and traceability for audit support

Where Information Means Insight

Unanet is a leading provider of ERP solutions purpose-built for Government Contractors, A/E, and Professional Services. More than 2,000 project-driven organizations depend on Unanet to turn their information into actionable insights, drive better decision-making, and nurture business growth.
