

Unanet AE Mobile App

Time and Expense in the palm of your hand

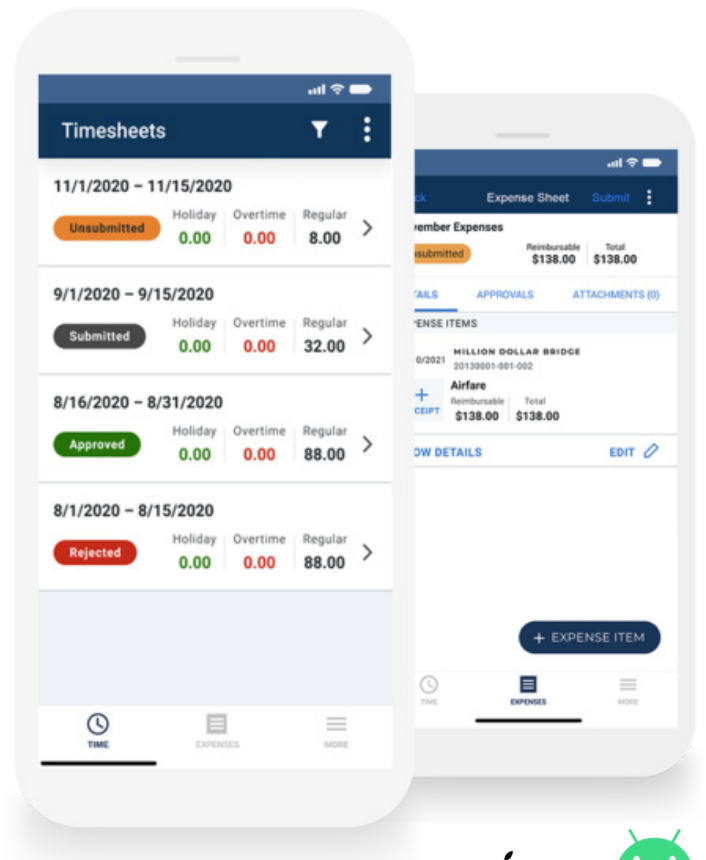

TIME AND EXPENSE ON-THE-GO

The further away from the work an employee gets before entering their time and expense, the more error-prone it becomes. This not only makes for a lengthier billing process, but also leads to a slowdown in cash flow if errors are not caught.

Unanet Mobile lets employees manage time and expense on their own device anywhere, anytime, ensuring more accurate and detailed time and expense entry, streamlined approvals and billing, and shorter time-to-cash.

KEY FEATURES AND BENEFITS

- **Purpose-built** for Architects and Engineers
- **Streamlined time and expense** with convenient tracking on-the-go
- **Drives Timely Submittals** with push notifications and reminders for time and expense entry
- **Optimized Accessibility** with Unanet AE Mobile available on all modern mobile devices (iOS and Android)
- **Simple and Secure** access with biometric login
- **Fosters Increased Adoption** with a simplified employee experience
- **Approve time and expense sheets from anywhere** expediting review cycles and decreasing your workload at billing
