

# Simplify the subcontractor management process from onboarding to invoicing

## Unanet's Subcontractor Portal

### Manage Subcontractors in one place

Time is money, and you do not have extra to spend on reconciling timesheets from disparate systems, correcting mischarges, fighting accrual nightmares, and resolving incorrect or delayed invoices.

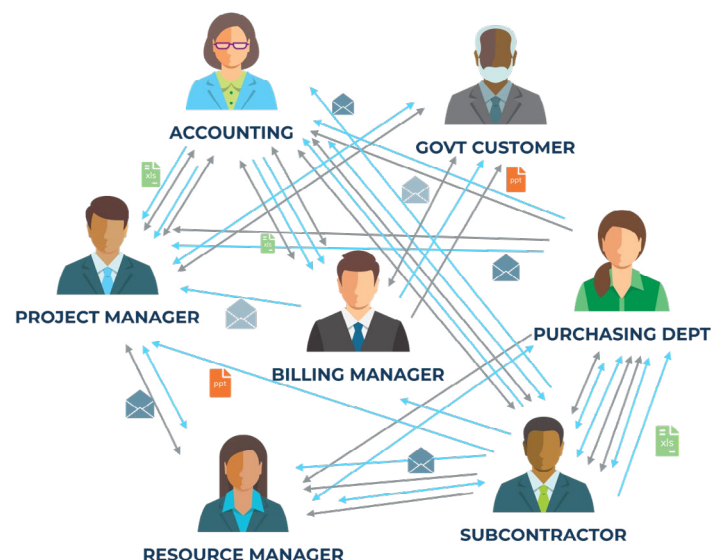

The Unanet Subcontractor Portal, an enhancement to our Financials solution, simplifies the Subcontractor management process from onboarding to invoicing, strengthening the relationship between Prime and Subcontractors.

### Subcontract labor and expense today

Prime contractors are constrained by extensive manual processes, changing requirements, and disconnected legacy systems.

**It's time for a modern way to manage Subcontractor labor.**
