

UNANET CRM OFFICE HOURS

The purpose of office hours is to provide time for customers to get questions answered, solve problems, share experiences, and have fun together. Mike Herzfeld, Customer Solutions Engineer and occasional Instructor, will lead these sessions in an informative and enjoyable manner. **Join us!**

How They Work

1

We offer a daily recurring model, where you can get your questions answered live.

2

Each day of the week will be a different subject which repeats each week. Friday will be Open Forum Day, so come with questions on anything and everything.

3

Use the blue buttons to register for each session you wish to attend. Since they happen every week, you must register for each week if you want to attend frequently.
